

Our company continues to acquire and maintain international standards to objectively evaluate its quality management system. Of the total 36 production sites, 32 sites have acquired the IATF16949 standard, and 4 sites have acquired ISO9001.

As this indicates, we are committed to providing customers with high-quality products and services. The acquisition of quality management system certification demonstrates our company's commitment to quality improvement and compliance with laws and regulations, and all employees are working together to improve quality.

We will continue to maintain and improve our quality management system with the aim of continuing to meet customer trust.

Acquisition status of IATF 16949 standard certification

Japan	1 country 8/10 locations	India	1 country 3/3 locations
Americas	4 country 4/5 locations	China	1 country 4/4 locations
